"TEN OPPORTUNITIES" ARE PRESENTED FOR GENEROUS PUBLIC'S CONSIDERATION

The Times-Dispatch this morning presents the cases of ten Richmond families who are in destitute circumstances and must have the aid of a generous public. Every one of the "Ten Opportunities" has been investigated by the Associated Charities and found worthy of your help. Send any contribution you may wish, designating the particular opportunity in which you are interested, to the "Ten Opportunities Fund," The Times-Dispatch, Richmond, Va., and it will be duly acknowledged through the columns of this newspaper. The opportunities, as selected by the Associated Charities, follow:

OPPORTUNITY NO. 1. standards whatever, is now one

OPPORTUNITY NO. 1. The public is asked to contrib-ute \$200 for the maintenance of a little girl of 14. The court was obliged to make ner a ward of the State because of conditions in her home. She was not eligible In her home. She was not eligible to any orphanage, and, as she is a very talented child, we are any-lous to give her a fair chance to make her own way in the world. Two hundred deliars will pay for the year of 1923 at Foster Falls. She has no home to come back to, and, up to the time the Associated Charities sent her away, she had only had about twenty weeks' schooling.

OPPORTUNITY NO. 2. We asked for \$600 for this same family last year and must ask for \$300 this year. Both the fa-ther and mother are tubercular and are in a sanatorium at present. The oldest boy, 17, who was re-ported as having come home from the sanatorium in the appeal last year, is now well and working regularly. The five other boys, ranging in age from 10 to 2, are being boarded by the Associated Charities at a splendid country home. They are going regularly to school and are very happy and getting fat and rosy. The oldest is helping with the board in the country, although his salary is not large. Three hundred dollars will help this family through the coming year. the sanatorium in the appeal last

OPPORTUNITY NO. 3. About a year ago a mother came to us in great distress. She came to us in great distress. She had recently married and the step-father of her five children was unwilling to support them and ordered her to get rid of them at conce. We found he was ill treating the boys and some action had ing the boys and some action had to be taken. We have sent them away to a boys' school and are anxious to raile money enough to give them a chance to grow up together. They are unusually at-tractive little fellows who are making the most of their oppor-tunities. Two hundred dollars will sup-

port one of them at Covington during the year 1923.

OPPORTUNITY NO. 4. Through Piness and worry, this woman has been rendered practically dependent, and at present the Associated Charities is finding the Associated Charities is finding it necessary to pay her board. She formerly lived not far from Richmond and has a house for which she has paid all but \$250. This must be paid by January 1 in order to save the property to her. If we could pay off the notes on her property, we feel it would mean more to her than anything that could be done for her benefit. If it can be arranged, this relief to her mind will assist in restoring her health so she can have her child returned to her. At

storing her health so she can have her child returned to her. At present her little boy is being supported in the country."

Two hundred and fifty dollars, we believe, will restore this wom-an's health and nerves and enable her to care for her child.

OPPORTUNITY NO. 5. A year ago the Associated Char-ities asked for \$200 to send a lit-tle girl of 9 away to school. Her hear of her being standards whatever, is now one of the brightest pupils in her class, at a school in the South. We ciass, at a school in the South. We are most anxious to give her another year away from the influence of her mother. The Principal of the school in which sie placed speaks in the highest terms of this little child. Two hundred dollars is asked for a year's tuition.

OPPORTUNITY NO 6.

Some years ago a woman who was working hard and trying to support her husband and only child a little girl, met with a seemingly slight accident, the effects of which later changed her into a crippic, unable t, d, work of any sort. Her husband, who was unable, owing 19 a weak heart, to do any, but a light yariety of work, died last summer, leaving her with no income. The mother and little girl are devoted to each other and should not be separated. The child is intelligent and stands high in her classes at school. In a few years she will be able the Espport her mother. Two hundred dollars is asked for this family.

OPPORTUNITY NO. 7.

Twin boys, whose father abandoned them and whose mother has had to be placed in an institution for the feeble-minded, are being cared for in a good school. They are only 11 years old, and, in spite of their poor start in the world, are showing every desire to improve. Two hundred dollars will pay for one of these boys maintenance at Covington for the rest of the year 1923. His school is the nearest thing to a home that the boys have ever known.

OPPORTUNITY NO. 8. This young woman is a mother with two little children and her old invalid mother who lives with her. She was the bread winner until she developed tuberculoris. The only chance for her is to stay at home and follow the treatment of the next of the children her in the children her in the children her at the children her at the children her stays and the children her at the children her stays and the children her children her at the children her stay at home and follow the treatment given her at the clinic. The disease is now arrested, but the doctors insist that if she goes hack to work she will immediately break down. She has been doing all she can by sewing at home, and does not ask for any more than she is combelled to have. She takes good care of the home, the children and the sick mother, an dis a woman in whose character the neighbors have confidence. Without help this little home will be broken up and several lives may be lost. With help for another year there is a good prespect of future happiness and independence. Three hundred dollars will keep this family together for another year.

OPPORTUNITY NO. 9.

The mother of two little children, the oldest of whom is 14 and the youngest 9, was left suddenly a widow. She is not physically strong enough to work more than half the but strong enough to work more than half time, but she says she will work her fingers to the hone rath-er than give up her children. We are asking the public to contrib-ute \$480 for this family.
